About the Hollie Gazzard Trust

The Hollie Gazzard Trust was formed in April 2014, after the horrific murder of Hollie Gazzard at her place of work, on February 18th. Hollie's family wanted something positive to come out of their tragic loss, therefore, a Charitable Incorporated Organisation (CIO) was created. Hollie's parents, Nick and Mandy, alongside her sister, Chloe, formed the Trust to give opportunities to other young people that Hollie had been fortunate to have and to raise awareness of the circumstances and signs which lead to Hollie's murder.

The terrible abuse started when she was just 19 years old, after much painful reflecting and research, the abuse Hollie received is now understood to be domestic violence, coercive control and stalking, which resulted in Hollie being horrifically stabbed to death at her place of work by her ex-partner.

While Hollie's family are devastated by her untimely death and unable to change the events of that fateful day, they hope that the funds raised through the Hollie Gazzard Trust will help young people and those around them to spot the signs of unhealthy relationships, have the confidence and support to leave violent and abusive partners to create a better future and reach their full potential.

♥ The Trust relies solely on donations from individuals and companies that generously support its work ♥

Helping Talented Young People

A strong partnership with Gloucestershire College, enables young hairdressers and beauticians to follow in Hollie's footsteps as they carve out a successful career in the industry. The Trust supports students in education and training by providing equipment, resources and meeting individual requirements.

Working Without Fear

As Hollie was murdered at her place of work, Nick Gazzard wanted to create awareness of domestic violence/abuse, stalking and coercive control in the workplace. Working Without Fear is a tailor-made programme designed to help organisations recognise what domestic abuse and stalking is, the implications and help them respond appropriately so that staff are protected.
